Health and Safety Policy

It is PrimeScape Projects Limited policy that each of our workers shall be provided with a safe and healthy place in which to work, and that our work practices will not compromise the health or safety of others present at the workplace.

Management will make every reasonable effort in the areas of hazard and risk identification, risk assessment, control and review as well as health preservation and promotion. These aspects of working conditions will be given top priority in our organisations' plans, procedures, programs and job instructions. We are committed to continual improvement of health and safety performance and the elimination of workplace injury and illness. Our commitment extends to supporting the safe and early return to work of injured workers.

Health and safety at work is both an individual and shared responsibility of all workers. The following areas of responsibility are essential to the success of the policy:

1. **Senior management** is required to actively pursue the goals of this policy through devising and administering a comprehensive health and safety risk management program and taking effective action to provide and maintain safe and healthy working conditions for all workers and others affected by the organisation's undertaking.
2. **Managers and Supervisors** will be held accountable for working conditions under their control and for the extent of information, instruction, training and supervision given on health and safety matters to workers and others. They are to provide the initiative and follow-up action to maintain this policy within their own areas.
3. **Workers** share responsibility for their own safety and that of their co-workers and others affected by work practices. The success of this organisation's health and safety program rests on the willingness of everyone to cooperate and work collectively so as to eliminate, minimise and control health and safety risks.

We recognise that there are times that we share a primary duty of care with other duty holders in regards to our workers health and safety and therefore we are committed to consult, cooperate and coordinate activities with other duty holders to produce the required health and safety outcomes.

Signed

Ben Fausett
